"Pickle
Bred"

CUCUMBER SEED

DILL
ONION
CAULIFLOWER

*A*LTHOUGH we have built an enviable world-wide reputation as Vegetable Seed Specialists, nowhere in our entire line, have we shown greater success in breeding and development work, than in our complete line of engineered "Pickle-bred" Cucumbers.

Constantly in touch with the exacting requirements of the Pickling Industry, our Research Department conducts continuous tests and experiments, the results of which are in visual evidence in each "Pickle-bred" strain.

Crisp, solid flesh, proper color, uniformity in size and shape, flavor, plant vigor—represent only a few of the items on the Robin-Seed check list. Each parent variety is comprehensively checked and rechecked on every point, before final strain approval is granted, and seed production commenced.

While our Cucumber family represents some fifty varieties, we have listed only those strains (together with Dill, Onion, and Cauliflower strains) that have real value to the Pickling Industry.

AMERICA'S
Largest
CUCUMBER SEED
PRODUCERS

I M P O R T A N T
